

NPSD Educational Foundation
Board Report
September 19, 2013

The results are in and the Foundation reported at its meeting last week that nearly \$15,000 was made on this year's golf outing. We are very excited as this is the most we made at the event since 2008. I want to thank the Trustees, volunteers, staff members, golfers and sponsors who made the day such a great success.

Our next event is our charity luncheon which will be held Sunday, October 6th at Bacco in North Wales. Just \$25 gets you a delicious all-you-can-eat sampling of their delicious food. I hope to see you all there.

We also announced that we will have a second luncheon of the year at Molly Maguire's in Lansdale on Saturday, February 22nd. It will be our first time holding a charity luncheon at Molly's and we are excited about this new partnership.

Time was also spent discussing the overall development plan of the Foundation, the timing of solicitations, EITC and whether we should focus funds on a specific need or program within the school district in addition to providing innovative classroom projects. This will be discussed further at the executive level.

The concept of a family fun event some time during the 2014-2015 school year will also be discussed further at the committee level. We hope to coordinate an event that promotes the foundation and schools, but also creates community among all of our families.

During the first week in October NPSD will be the host of a Sharing Session among several local educational foundations. We are excited of this opportunity to get ideas on how to improve our organization and increase the funding we provide to our schools.

Any questions about the Foundation can be directed to Christine Liberaski at the ESC.
